## Personal Statement

~ I am very passionate in regard to **technology**. To name a few examples, I have experience in the **construction and assembly of computer hardware** as well as a **strong fundamental understanding of computer software**. I am confident in my ability to **adapt to new working environments** and **maintain a sound, consistent work ethic** as I have experience from studying abroad in Madrid. Currently I am studying the **Computer Science with Spanish (honours degree)** at **Technological University Dublin**. I am experienced with **Python code, brainstorming & problem solving** as a part of a team or individually. I enjoy speaking **Spanish** and only hope to further strengthen my understanding of the language. I wish to pursue a career in the **software development field**.
